Mr. Frederick R. Dowsett, Chief
Monitoring and Enforcement Section
Hazardous Waste Control Program
Colorado Department of Health
4300 Cherry Creek Drive South
Denver, Colorado 80222-1530

Gentlemen:

The U.S. Department of Energy, Rocky Flats Field Office reviewed the correspondence from Dr. Dowsett regarding "Oversight of Corrective Action Activities under the IAG", dated May 2, 1994. We are very willing to provide you the necessary notifications for fulfillment of your regulatory oversight role, but we were also dismayed by the nature and tone of your letter.

Your citation from the Interagency Agreement (IAG), Part 37, Paragraph 210 requires that notification be made to the Project Coordinators . Such notification has routinely been telephonically made between my staff and their regulator staff counterparts under Martin Hestmark and Gary Baughman, the named Project Coordinators for the U.S. Environmental Protection Agency, Region VIII, and the Colorado Department of Health, respectively. This arrangement appears to have worked successfully for the past three years and we were unaware that it did not meet your needs.

It appears obvious by your correspondence that you have changed the manner in which you intend to conduct oversight of the IAG. This has been done without redesignation of the Project Coordinator or notification to us concerning how your needs have changed. We would like to meet with you at the earliest opportunity to gain an understanding of how you have changed your method of oversight so we can support your requirements as effectively as possible. If based on that meeting an amendment to the IAG or further designation of Project Coordinators is needed, we would gladly support that effort.
